

Perfect Pass is a line of quality-first maintenance & repair alloys.

WIRES • POWDERS • STICK ELECTRODES

2060

DATA SHEET

GENERAL CHARACTERISTICS:

This is a martensitic alloy designed as a general-purpose, hard facing wire. It offers a good balance of abrasion and impact resistance. Excellent choice for components that are required to maintain a sharp edge.

APPLICATIONS:

Chisel plows, dredge components, agricultural tillage tools, debarking knives, earth moving buckets, and bucket lips. Ideal for most all earth moving types of equipment.

MECHANICAL PROPERTIES:

DIAMETERS:	.045"	1/16"	7/64"	
HARDNESS (HRC)	as deposited – 55-60			2 Pass

PROCEDURE:

This product works best when the part to be hard-faced is cushioned or built-up, if possible, with Perfect Pass CBU.
